Yellow Day

To reinforce the recognition of 'Yellow' colour, a lot of fun activities were organized in Daycare. The children came dressed in yellow coloured attire on July 17, 2019. They participated in an assembly and spoke few lines about a yellow coloured object that they got from home. They relished drinking yellow coloured tang that they made in the class. Girls had their nails painted yellow and all went back happy carrying yellow balloons.

Bake a Cake

To reinforce the concept of letter 'C', Daycare organized 'Bake A Cake' activity on July 18, 2019. The children found this activity very interesting and enjoyed mixing the batter in their cups. They were delighted to see the batter turn into puffed up cupcakes in the oven. They had fun decorating the cupcakes with gems and relished the sweet savoury that they had accomplished.

Merge-it-On (Colouring Competition)

'Every child is an artist.' - Picasso

Colouring sparks the imagination of the children and gives them an opportunity to express themselves. In a bid to enhance their aesthetic skills and to explore the potential in the young minds, grade Prep organized **Merge-it-On** (Colouring Competition) for their toddlers on Monday, July 15, 2019. The little artists participated in the competition with great exuberance and enthusiasm. The tiny tots brought in their colourful imaginations by creating amazing artwork. It helped them in exploring new ideas, enhancing creativity and developing a sense of colours.

Green Day

A very important part of learning during Kindergarten years is identification and recognition of colours. To develop the same, Nursery wing celebrated '**Green Day**' on July 18, 2019. The kids came dressed up in green coloured attires and brought green vegetables & fruits in their tiffins. The day began with a special assembly where a story was narrated. Children had fun planting the sapling in small clay pots that they got from home.

Market Scene Activity

In order to make our toddlers aware of their neighbourhood, grade Prep organized 'Market Scene' in their respective classes on July 17, 2019. The little ones were amazed and excited to see set up of different shops viz. grocery shop, toys shop, baker's shop, and stationary shop within their classrooms. The activity encouraged the flow of expression amongst the kids through the role play of customers and shopkeepers which was carried out by the kids themselves. The scholars enjoyed the activity and learnt a lot of things about the neighbourhood.

Special Assembly on Eid

India is a country of different religions and its beauty lies in celebrating all the festivals with equal vigour. Keeping the same ethos in mind, grade Prep conducted a **Special Assembly on Eid** on July 19, 2019. The assembly began with elucidating on how and why Eid is celebrated. The engrossing skit presented by our little ones showed the exchange of gifts and enjoyment of savouries on this pious occasion. The dazzling dance performance at the end was applauded by one and all. The assembly conveyed the message of love and brotherhood amongst everyone.
